## Summary

An Informatics Engineering student with a strong passion for backend web development. I have built various projects using Laravel, Express.js, and MongoDB. Actively taking courses and certifications to sharpen my technical skills. Seeking position as a part time Web Developer to apply my skills in a real-world setting and contribute to a professional development team.

## Projects

### Real-Time Chat Application
Technologies: Laravel, Livewire, Pusher, MySQL
- Developed an interactive web chat application for real-time user communication.
- Implemented real-time events using Laravel Echo and Pusher for instant message delivery.
- Utilized Laravel Livewire to build a dynamic interface without extensive JavaScript.

### Multi-User Minimalist Blog
Technologies: Bootstrap, Express.js, EJS, MongoDB
- Built a dynamic blog application using Express.js and EJS Template Engine with an MVC architecture.
- Managed user authentication and basic authorization for multi-user features.
- Designed a responsive user interface with Bootstrap and server-side rendering logic.

### Online Donation Platform "Peduli Bersama"
Technologies: Laravel, Bootstrap, TailwindCSS, MySQL
- Built a full-stack donation platform to connect donors with those in need.
- Designed and managed the MySQL database for campaign, donation, and user data.
- Implemented core features such as campaign creation, donation processing, and reporting.

## Technical Skills

**Backend:** Node.js, Express.js, Laravel, PHP, RESTful API
**Frontend:** HTML5, CSS3, JavaScript (ES6+), Bootstrap
**Database:** MySQL, MongoDB, PostgreSQL
**Tools:** Git, GitHub, Postman, VS Code, Supabase
**Currently Learning:** React.js, Advanced Backend Development

## Education

**University of Mataram**
Bachelor of Informatics Engineering | 2023 – Present

## Certifications

**Web Development** – JongKreatif, Alkademi (2021)
**Junior Web Programmer** – BNSP (2022)
**Cloud Certified Developer** – Alibaba Cloud (2024)
**JavaScript Programming Basics** – Dicoding (2022)
**Express.js and MongoDB Basics** – Codepolitan (2024)
